Title: **A NATO poster advertising a red flag event in Arnhem, Netherlands**

Description: *A NATO poster advertising an event in the Dutch town Arnhem. The date and city of the advertised red flag event coincides with the death of a friend of the founder of MH17Truth.org. The poster shows NATO personnel holding a red flag and the poster is available in just 4 languages: English, Russian, French and Ukrainian, an unusual combination for an event in a small Dutch town. The event followed a few days after the 2015 NATO emergency meeting called by Turkey, which had followed intensified efforts to raise awareness for corruption related to MH17.*

Author: nato.int
